

ARGENTARIO GOLF RESORT & SPA

PORTO ERCOLE GR, ITALY

"The resort also offers real estate opportunities through Argentario Golf Residences, featuring newly built luxury villas for sale on the hills overlooking the golf course and the lagoon."

Inaugurated in 2008, Argentario Golf Resort & Spa is nestled in a green valley near Porto Ercole, Southern Tuscany. It is a luxury, environmentally-friendly resort with 73 design rooms, an independent villa, a golf course with 18 holes, a wellness centre and health club, and a Mediterranean restaurant. The resort also offers real estate opportunities through Argentario Golf Residences, featuring newly built luxury villas for sale on the hills overlooking the golf course and the lagoon. The 5-star design hotel welcomes guests of all ages and makes travelling with children even more enjoyable for the whole family. It organises tailor-made private or group activities, such as wine tasting, cooking classes, boat excursions, horse riding and bike tours. Located next to Porto Ercole and only 90 minutes away from Rome International Airport, this 5-star design hotel is surrounded by cork-oak woods and centuries-old olive trees in Tuscany's Maremma. The pristine beaches of the Silver Coast (Costa d'Argento) are only a 5-minute drive away. Due to its easy access by car, train or helicopter, it is perfect for those who want to discover an exclusive and unique side of Maremma and Tuscany. Day trips and excursions can be organised to Siena, Florence, the picturesque villages of Pitigliano, Magliano, Sovana and Manciano, Giglio and Giannutri Islands, the Natural Park of Maremma, Capalbio and to the olive groves and vineyards of Tuscany. All rooms have an incredible view over the golf course, Monte Argentario's landscape or the Lagoon of Orbetello. Each design room is individually decorated room and features a terrace with panoramic views and the latest technologies. Every single detail is the result of a meticulous research on materials and fittings. The hotel also includes 11 Superior Rooms with direct access to the wellness centre and to the outdoor pools. These rooms give a fresh and sporty interpretation to the concept of hospitality and conduct guests in an exclusive experience. Dama Dama Restaurant offers a contemporary interpretation of Tuscan and Italian cuisine through healthy and tasty dishes that are prepared with local products. Some of the wholesome products come directly from the resort organic vegetable garden. An eco-conscious philosophy and a meticulous research of materials and modern décor: these are the ideas behind a new vision of the rustic and traditional Maremma Tuscany. At the Argentario Resort, the main symbol of this identity is the majestic entrance hall, where the intense colours of the sky and of the Mediterranean vegetation stand out through enormous glass windows and contrast with the tabacca-stone pavements, the arched counters and the opaque black structural elements. Thanks to a mild climate, the Maremma and the Argentario offer a wide choice of activities that can be enjoyed not only during the summer, but throughout the year.
